### Description of the Plan

This Plan complements and is supplementary to the manufacturer’s warranty but does not replace the manufacturer’s warranty or warranty obligations during the manufacturer’s warranty period. Parts and services covered by the manufacturer’s warranty and the warranty obligations under the manufacturer’s warranty, including battery replacements, are the responsibility of the manufacturer only. This Plan provides certain additional protection which the manufacturer may not provide. Please refer to the terms and conditions of the manufacturer’s warranty for more details.

In the event Your Device suffers physical or liquid damage that renders it inoperable, We will repair Your Device and return it to normal operating conditions. At Our sole option, We may choose to replace Your Device rather than repair it.

If Device failure is due to physical or liquid damage, this Plan provides one (1) service request throughout the lifetime of the Plan.

If We replace Your Device, Your Device will be replaced with a refurbished Samsung device of like kind and quality and with comparable features and functionality, but not necessarily of the same colour, and not to exceed the current value of Your Device as determined by Us. Standard accessories included with Your Device in the original manufacturer’s packaging will only be replaced when incompatible with the replacement device. All parts and Devices that have been replaced by a replacement part or device become Our property. Protection under this Plan will be extended to the replacement device for the duration of time remaining under this Plan. The replacement device will become the protected Device. Any repair covered under this Plan may only be performed by a Samsung authorized service center.
